

What an awesome and orderly God we have!

For example:

- the eggs of the potato bug hatch in 7 days;
  - those of the canary in 14 days;
  - those of the barnyard hen in 21 days;
  - The eggs of ducks and geese hatch in 28 days;
  - those of the mallard in 35 days;
  - The eggs of the parrot and the ostrich hatch in 42 day
- (Notice, they are all divisible by seven, the number of days in a week!)

God's wisdom is seen in the making of an elephant. The four legs of this great beast all bend forward in the same direction. No other quadruped is so made. God planned that this animal would have a huge body, too large to live on two legs. For this reason He gave it four fulcrums so that it can rise from the ground easily.

The horse rises from the ground on its two front legs first. A cow rises from the ground with its two hind legs first. How wise God is in all His works of creation!

God's wisdom is revealed in His arrangement of sections and segments, as well as in the number of grains.

- Each watermelon has an even number of stripes on the rind.
- Each orange has an even number of segments.
- Each ear of corn has an even number of rows.
- Each stalk of wheat has an even number of grains.
- Every bunch of bananas has on its lowest row an even number of bananas, and each row decreases by one, so that one row has an even number and the next row an odd number.

-The waves of the sea roll in on shore twenty-six to the minute in all kinds of weather.

All grains are found in even numbers on the stalks, and the Lord specified thirty fold, sixty fold, and a hundredfold - all even numbers.

God has caused the flowers to blossom at certain specified times during the day, so that Linnaeus, the great botanist, once said that if he had a conservatory containing the right kind of soil, moisture and temperature, he could tell the time of day or night by the flowers that were open and those that were closed!

WOW!!! FASCINATING.

Sunday School could use some help.

We are still in need of more teachers and a Sunday School coordinator, but this year we are doing something a little different. We are looking for a variety of people to help with the teaching, and only asking them to teach a few times through the year. If you think you might be interested and need to know more, or would like some help with what you would be teaching, don't hesitate to contact either Doug Kendall or Kim Allard. We are going to have the children and young people remain in the service for Communion Sundays, so there will not be Sunday School on those Sundays. And we have had a number of people come forward to help coordinate things like the pageant and the "Gifts of Love" Youth Sunday in February and the "Festival of Lights" parade. The coordinator's job is much lighter than it has been in the past few years. Again, if you have interest in helping out with either teaching in the Sunday School or are considering being the coordinator please speak with either Doug Kendall or Kim Allard.

Getting even with a person puts yourself on his level.

### Reasons Not To Mess With Children

A little girl was talking to her teacher about whales. The teacher said it was physically impossible for a whale to swallow a human because even though it was a very large mammal its throat was very small. The little girl stated that Jonah was swallowed by a whale. Irritated, the teacher reiterated that a whale could not swallow a human; it was physically impossible. The little girl said, 'When I get to heaven I will ask Jonah'. The teacher asked, 'What if Jonah went to hell?' The little girl replied, 'Then you ask him'.
